

Encrypted Sec Club Conducts Cybersecurity Awareness Workshop at Somaiya High School, Shrirampur

20-Sept-2025

In collaboration with the Lions Club of Shrirampur, the Encrypted Sec Club of Sanjivani K.B.P. Polytechnic, Kopargaon, organized an interactive workshop to educate students and faculty on online safety, digital fraud prevention, and secure internet practices, empowering young minds to navigate the cyber world responsibly.

Encrypted Sec Club of Sanjivani K.B.P. Polytechnic, Kopargaon, in collaboration with the Lions Club of Shrirampur, conducted a highly impactful Cybersecurity Awareness Workshop at Somaiya High School, Shrirampur. The session aimed to educate students and faculty about the importance of cybersecurity in the digital era, focusing on topics such as online transaction security, the role of antivirus and security software, and common types of cybercrimes. Participants were guided on preventive measures including the use of strong passwords, safe browsing habits, and regular software updates, with special emphasis on the secure use of online banking, e-wallets, and UPI platforms. The speakers highlighted that small precautions can prevent major financial and data losses, encouraging everyone to adopt responsible online behavior. The event was graced by dignitaries including **Mr. Ranjit Shrigod** (Chairman, Somaiya High School), **Mr. Bhushan Gopale** (Principal), **Mr. Kalyan Lakde** (Vice-Principal), and several faculty members, whose presence added great value to the initiative. From the Encrypted Sec Club, Atharva Pawar (President), Shruti Sonsale (Red Team Leader), and their dedicated team conducted engaging and practical sessions that made the workshop both interactive and informative. The Lions Club of Shrirampur, represented by President **Ln.Rahul Arbatte** and former president **Ln.Vishal Pawar**, provided essential support to ensure the program's success and reach. By the conclusion of the event, students and staff had gained valuable insights into potential cyber threats and the preventive actions needed to protect themselves, making the workshop a resounding success in promoting digital safety and cybersecurity awareness.
